*What are your highest priorities for recreation in the Teanaway Community Forest?*

Check the demographics of the type of equipment being sold - snowmobile/motorcycles, offroad, side by side and ATVs. These are the people that spend the most, get taxed the most, buy tabs and permits.

Snowmobiling

Water sports

ATV/ORV

*What are your highest priorities for recreation in the Teanaway Community Forest?*

Being able to enjoy ORV riding on the Cle Elum Ridge and adjoining trails. The limitation of ORV riding greatly impacts our ability to recreate on the mountain and in our community in Pine Loch Sun.

I love to explore the trails in Teanaway. Have been riding them alone for years. Have seen erosion and damage from motos and ATVs not to mention noise. I want moto use severely limited.

*What are your highest priorities for recreation in the Teanaway Community Forest?*

Wildlife protection - I support wolves and other wildlife. Soil and water protection - sandy soil erodes easily. I support all users - but feel motorized uses should be severely restricted to support above goals.

It is very important to our family and friends who live in Ronald, WA full time that we have ATV/Motorcycle access to this area. We moved here primarily to be able to enjoy that area in that way.

*What are your highest priorities for recreation in the Teanaway Community Forest?*

1. Developing a sustainable system of single-track mountain bike trails
2. Preserving a wilderness experience
3. Balancing competing user interests
4. Limiting (but not necessarily excluding) motorcycle use - I have concerns about the fragile sandy soils in area of the Teanaway

*What are your highest priorities for recreation in the Teanaway Community Forest?*

Not to impact wildlife habitat (in particular bears, cougars, wolves and other larger carnivores)

Separate motorized and non-motorized recreation (and we need to really think about best places for mountain biking - TCF offers great opportunity for a family/old people mountain biking system because of low grades - think about it.)

*What are your highest priorities for recreation in the Teanaway Community Forest?*

Preserving the pristine environment of the Teanaway

The caves are covered in graffiti as of late

Target shooting has increased and will become as big or worse problem than Capitol Forest's in the future

TCF is too small and densely populated with recreational use lately to allow target shooting

Motorcycles - give motorcycles something - there are areas of the TCF that are so torn up that they will never recover. They should have some kind of access from Lake Cle Elum to the Middle Fork trail. Multi use works in Capitol Forest/Tahuya. It could/should work in the TCF as well.

Access to 1st Creek land
